

Goddess Juno Invocation

*Juno Queen of Heaven
come forth now within me
and around me*

*Set the stage for the love
and life-force within me
to inspire and uplift
my life,
my creations,
and my relationships*

*Guide me to the richness
of healthy, loving relationships,
and the joy of a strong, thriving family*

*That I may shine and love with my whole self,
empowered to live from the truth of my being.*

And so it is.
